

How to Enter Corewell Health Dearborn Hospital for Labor and Delivery

A guide for expectant mothers and their families

Introduction

If you are pregnant and planning to deliver your baby at Corewell Health Dearborn Hospital, you may be wondering where to go when you are in labor or if your physician directs you to OB Triage. This document will provide you with the information you need to enter the hospital safely and quickly.

Where to Park and Enter the Hospital

The hospital has different entrances and parking options depending on the time of the day. Please follow the instructions below based on when you arrive at the hospital.

- 5:00am - 8:00pm - Park in the South Parking Structure, enter the hospital at the South Entrance, proceed to the Skillman Elevators - Floor 3
- 8:00pm - 5:00am - Enter through the Emergency Department. Notify Security Officer and/or the Registration Desk team member that you need to go to Labor & Delivery - the Emergency Department will escort you to the Skillman Elevators - take the elevator to Floor 3.

What to Bring and Expect

When you arrive at the hospital, you will be asked to provide some information and sign some forms. To make the process easier, please bring the following items with you:

- Your photo ID and insurance card
- Your prenatal records and any other relevant medical documents
- Your birth plan and any preferences or special requests you have for your labor and delivery
- Any personal items you may need, such as clothing, toiletries, snacks, phone charger, etc.

Once you are registered, you will be taken to the OB Triage area, where a nurse will check your vital signs, monitor your baby's heartbeat, and perform a cervical exam to determine how far along you are in labor. Depending on your condition, you may be admitted to a labor and delivery room, transferred to the antepartum unit, or discharged with instructions to return later.

Contact Information and Resources

If you have any questions or concerns before or during your labor, please contact your physician or the hospital. Here are some useful phone numbers and websites you may need:
